DETAILED ACTION

Specification

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Allowable Subject Matter

Claims 1-7 are allowable.

The following is an examiner's statement of reasons for allowance: Claims 1-7 are allowed over the prior art of record. The prior art fails to teach or suggest an apparatus for error correction redundancy to the transmitted data based on channel transmission characteristics in bandwidth limited communication system that implement means for adding redundancy to a data responsive to determining means; and means for inner encoding the data with the added redundancy. The advantage of the present invention is to enhance error correction related to frequency mapping coding.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Cited References

The prior art made of record and not replied upon is considered pertinent to application's disclosure. The cited references relate to digital communication system with error correction.
